Wacinque Amistad Kaizen BeMende retired at White Sands Missile Range after 40 years of military and 25 years of civil service. He was also active as a volunteer teaching financial and tax education. His primary love also included African American Military service history from ancient periods to today. This raises the question of what individuals choose to believe any sourced information or African facts like the unknown Ubuntu Calendar, the first African Calendar that has a 4 5 4 rhythm of 8 months with 4 weeks and 28 days and 4 months of 5 weeks and 35 days yet is 100% accurate to this day including Leap year where you add one day to Feb for 36 days.

There will be those who won't believe in the Ubuntu Calendar because the right person or group did not inform them. By combining my other two loves, I support the small steps to health and wealth life model. Recently the James Webb Space Telescope reached its ideal position one million miles from earth and now informs us of when the universe was a baby. A program NASA calls "Unfolding the Universe". I encourage our community to launch their own internal data journey with NIH and their AllofUS study we can call it "Unfolding our Inverse" through DNA, to learn more about both our heritage and health, two of the most significant wealth-building resources within our reach. 3 John 2 KJV verse 2 Beloved, I wish above all things that thou mayest prosper and be in health, even as thy soul prospereth.

This guidance drives my company mission to reduce to Zero individuals experiencing financial exclusion and being unbanked or underbanked. Our Asset Ownership Standard and Global Permanent Investment Account-Dividends will bring community prosperity and financial transformation to NM.
